

United States Department of Agriculture (USDA) FY 2016 Service Contract Inventory Planned Analysis

USDA will evaluate the 11 Product Service Codes listed in the chart below for the FY 2016 Inventory Analysis.

The analysis will place priority emphasis on the following PSCs: D302 IT and Telecommunications System Development, D307 IT and Telecommunications Strategy and Architecture, D399 IT and Telecommunications, R408 Support Professional Program Management Support and R599 Support-Professional Other.

Product Services Codes D302, D307 and R408 are identified by OMB for heightened management consideration, based on concerns of increased risk of losing control of mission and operations as identified through a review of reports issued in recent years. Reports such as; the Government Accountability Office, the Commission on Wartime Contracting, agency Inspector General, Congressional Committees, and the Acquisition Law Advisory Panel (also referred as the “SARA Panel”) and OMB analysis. Product Services Codes D310, R408, R425 and R499 are identified by the USDA based on concerns of increased risk of losing control of mission and operations.

USDA will evaluate these PSC to determine whether the agency should consider an increased risk of losing control of mission and operations as identified within the aforementioned issued reports and USDA internal analysis.

PSC	Function
B599	Special Studies/Analysis-Cost Benefit
D302	IT and Telecom-Systems Development
